The Right Way to Warm Buildings.

There is ample evidence to prove that the rational heating of buildings was a well understood art several thousand years ago. In the palmy days of Pompeii's early existence, before its burial under volcanic ashes, the old Roman baths in that town were heated by steam, and in a better and far more scientific manner than is followed at the present time. The walls of the buildings were double, and the steam, at atmospheric pressure, no doubt, was carried up through these walls all around the rooms to be warmed, bringing them to a temperature approximating that of the steam, and the occupants of the room were thus exposed to a radiation of warmth from all directions. In this we have the true theory of heating. Following in the measure this early system, some one in Germany, according to recent account, proposed to build a house of which the framework is to be made up of water tubing, through which warm water is to be circulated in winter and cold water in summer, warming or cooling the inclosed spaces as may be prompted by requirements. All the floors and ceilings and walls are to be crossed and recrossed by water pipes, affording heating and cooling surface exactly where theory tells us it should be to give the most desirable results. The building of that house would certainly afford an excellent modern practical demonstration of the value of these ideal principles.—Cassier's Magazine.

The Flowers of the Tree.

It has come about that the lowly plants, unable to secure their ends by fair means, have had recourse to guile—to tempt the insects by velvety textures of rich color widely spread, by exhaling sweet and powerful odors, by offering nectar and finally by devising artful appliances whereby an insect can be loaded with pollen without his knowledge at the time he is imbibing the seductive nectar. Some have gone so far lower, and because they could not afford to produce so brilliant a display as other plants have set to work to press the vulgar carion loving flies into their service by developing petals of a livid purple hue and giving forth a putrid odor. Foul! Shall hearts of oak and beech and ash stoop to such tricks? The forest tree has a hundred or a thousand years to live and exhibits no precocious anxiety to produce fruit. At 15, 20 or 30 years is time enough to think of such things, and when the time comes the delicate essential organs are protected merely by a few simple green or yellow scales or by none at all. The pollen is lavishly produced, for the wind is not so precise a vehicle of transmission as the insect, and but a very small percentage of the pollen grains will reach their destination. This, however, is of little consequence, for an incipient seed needs but one pollen grain to fertilize it, and should 100 fall upon it, 99 would be superfluous.—Good Words.

How Do You Do?

In "A Parisian in America" M. de Soissons says: "Two Americans, meeting, accost one another with a 'How do you do?' immediately followed by the inquiry, 'How's business?' We French, you say, 'Comment vous portez vous?' (How do you carry yourself?) because we care so much about our appearance—in fact, we are the most vain nation in the world. The Germans say, 'Wie geht's Ihnen?' (How goes it with you?) and, indeed, they do go very slow but sure. The Italians, 'Come state?' (How do you state?). And you know how they say, especially in these days, with their army and finances. The Russians, 'Kak poryadok?' (How do you live?) because they are so fond of good material living. But the Anglo-Saxons say, 'How do you do?' because all their faculties are concentrated upon their work, upon and concentrated upon their work, upon and concentrated upon their work. That is the secret of their prosperity. The Americans say still more. He asks immediately about business. They do not care about their health, about their living. Their great care is about business. They kill themselves with hard work; they neglect their physical and mental life, but they make business flourishing and booming."

The Demand For Mother of Pearl.

Considering the vast values in gem pearls obtained from the eastern fisheries, it is surprising to find that the plain, unromantic mother of pearl seashell is of even greater worth. Previous to the discovery of the extensive Australian fishing grounds, in 1886, the supply of mother of pearl was diminishing with the demand was increasing. The lustrous shelled species already mentioned are there found in fine quality. The shells are the size of large soup plates, weigh a pound each and are worth about a dollar a pair. An expert diver, in diving dress, will collect 300 or 400 pairs in a day. About 100 gem pearls are found in every ton of these shells.—Popular Science Monthly.

Heroes in history seem to us poets because they are there. But if we should tell the simple truth of some of our neighbors it would sound like poetry.

ERIE MEDICAL CO., BUFFALO, N. Y.

Nowadays, when women are trying to do everything, it is not strange that many things are overdone. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too it might be different, but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep going until she drops.

Working in this way has manifold evils. As an old colored Aunt used to say: "There's always something the matter. If it isn't one thing it's two." The most common trouble resulting from over exertion, either mentally or physically, is constipation of the bowels, with all its attendant horrors.

There is no human element that so saps the energies, so deadens the ambitions, as that coming from the bowels forgetting their vocation. Of the drive working about eight hours out of the twenty-four.

Dr. Pierce's Pleasant Pellets are the most effective remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No gripping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and like the good little servants that they are, disposing of them effectually.

Mrs. ROSANNA M. BLISS, of Colosse, Co. Nevada, New York, says:

"I had suffered much with diarrhea, sometimes fainting from too much medicine. Over exertion physically caused constipation of the bowels. I tried liver pills. They gave temporary relief. Two years ago I began using Dr. Pierce's Pleasant Pellets. I have, at intervals, used three bottles, and I am now enjoying uninterrupted good health."

Yours truly,

Rosanna M. Bliss.

FOR PRESIDENT,
WILLIAM J. BRYAN,
OF NEBRASKA.

FOR VICE PRESIDENT,
ARTHUR SEWALL
OF MAINE.

TO REASONABLE AND PATRIOTIC PEOPLE.

According to the most reliable information obtainable fully three-fourths of the people of Nevada, and an overwhelming majority of the voters of the United States favor the election of William J. Bryan to the Presidency. A trial of the single gold standard, to which the gold Republicans, who control the party organization are pledged, has convinced the public that it is paralyzing the industries of the country, and that four years more of it will bankrupt millions who, under the bimetallic standard, could comfortably support themselves and their families. They see all the gold in the country, with the exception of \$12,000,000 or \$15,000,000 in circulation on the Pacific Coast, locked up in the United States Treasury, subject to the call of European nations, or in the hands of speculators, who invest only in United States bonds. They know, too, that about one-half the volume of Government notes, or greenbacks, as they are called, are held in the Treasury as available cash, which is not issued, and the greater part of the balance is held by banks, ready to be presented at the Treasury, whenever the gold trust finds it profitable to draw out gold for export, or to compel the Government to issue more bonds. They are aware that this policy reduces the volume of money in circulation to a few dollars per capita, so that producers are obliged to sell twice as much of their products for a dollar as they did when money was abundant. They know that the scarcity of money has caused a general business depression, strangled enterprise, deprived the workman, whose capital is his muscle, of the means of earning a livelihood, and ruined the debtor class, as a dollar which to-day costs two bushels of wheat, 500 pounds of hay, or 15 pounds of wool will not pay any more debts or taxes, than a dollar which, when money was abundant and cheap could be had for a bushel of wheat or potatoes, or a few hours' work.

Now, one of the great political parties of the country pledge its candidates if elected to keep money scarce and dear, until foreign nations permit us to coin silver, while three other great parties pledge themselves if in power to coin more money. These declarations have obliterated party lines to such an extent, that the farmers and workmen generally of the country, regardless of past party affiliations, are aligning themselves on the side of free coinage, under Bryan, while the gold gamblers, trusts and monopolies of all parties have arrayed themselves on the side of the single gold standard, under McKinley and Hanna.

That the people of Nevada, with the exception of a few hidebound partisans and place hunters and their dupes, are for Bryan, free coinage and better times, there is no doubt, whatever, but there is danger that designing men, to further their own private ends, may attempt to divide them. To prevent this and insure unity on the electoral ticket, free silver Republicans, free silver Democrats, Populists and Silver party men should immediately take steps to nominate an electoral ticket pledged to vote for Bryan for President. One of the electors, in deference to the Populists, to vote for Watson for Vice President. This accomplished the parties can then divide, if they see fit to do so, and nominate State and local tickets to suit themselves.

The patriotic citizens of Nevada should take an interest in this matter. The golden men of course, will do all in their power to prevent an alliance between the Silver men, but neither Mark Hanna's bar nor the treachery of leaders, should prevent fusion on an electoral ticket.

THE PEOPLE'S CHAMPION.

Bryan's journey from his Nebraska home to the metropolis of the Empire State was a triumphal march, a tribute of the people to a public favorite. At every city, village and way station, from Central Nebraska to Manhattan Island, he was greeted by his countrymen with shouts of welcome, and looked upon as the savior of the masses from the rapacity of the gold sharks. Day and night, at all hours, he had to respond to calls from the multitude,

and his powers of endurance were taxed beyond the capacity of the ordinary man. From the farms, the stores, the workshops and the factories the workmen, the bone and sinew of the country, flocked in thousands to greet, see and hear the champion of the silver cause—the cause of the people.

At Pittsburg, in the heart of the great commonwealth of Pennsylvania where only a year ago a Cameron, a Sibley and a Barker, had the courage to declare for an American financial system independent of any other nation, tens of thousands cheered for Bryan and free coinage, and the indications to-day are that the State, which has heretofore given immense Republican majorities, will this year in spite of trusts, monopolies and "fat" give its electoral vote to the free silver champion. The people were determined to hear him, and meetings were held at the largest theatres in the city, at each of which Bryan addressed the crowds and uttered truths which touched the hearts and appealed to the reason of every one of his hearers. He said in the campaign there is only one great issue, and that one question must be settled before others can be. "A nation that is not able to adopt its own financial policy is too impotent to legislate on any question where the people are concerned. Parties must face the present. Parties must be prepared to meet and solve every issue as it arises, and the party that does not care enough for the issue is not great enough to govern the United States. Parties do not make issues. Issues make and unmake parties."

Mr. Bryan explained many things relating to free coinage so that all could understand them, while the most astute goldbug could not refute them, and received such an ovation as has seldom in this or any other country been accorded a candidate for office. He is in sympathy with the people and the people are reciprocal.

BRYAN AT NEW YORK.

He Is Received With Unprecedented Enthusiasm.

AN ATTACK ON WALL STREET.

"What's the Matter With Bryan?" "He Is All Right," the Cry.

Special to the JOURNAL.

NEW YORK, August 12.—William Jennings Bryan made his debut in the stronghold of the gold forces to-night and within earshot of Wall Street pleaded the cause of silver in a manner which drew the immense audience fairly delirious. Fifty thousand people gathered at the entrance of Madison Square Garden and a thousand policemen were unable to control the crowd. When the doors opened the crush exceeded anything ever witnessed in the city. Women fainted, men tore each other's clothes and the policemen had to use clubs vigorously to prevent a panic and disaster. Every inch of space in the massive building was occupied when the Presidential nominee entered his box. When recognized, Bryan was cheered and cheered for several minutes, the enthusiasm being unbounded and unprecedented. Men and women stood in chairs and shrieked until they were exhausted. When the audience wore itself out Bryan stepped to the front and opened his speech. He defended the Chicago Convention from the attacks of those who denounce the gathering as anarchistic. He quoted Lincoln and Jackson as authorities for the action of the Democrats and each quotation was loudly applauded.

He took up the planks one by one and showed their strength. The income tax was well handled, but when the financial issue was reached, the speaker warmed up and plunged into the subject with great earnestness. Every conceivable argument against free coinage was treated in a masterly fashion, with matchless logic and eloquence. Frequently the opening scenes were repeated and the audience seemed beyond control. His speech cannot be termed an oratorical effort, though eloquence was not lacking. It was clear and deep reasoning of the loftiest and most logical character, calculated to appeal to thinkers.

At the conclusion the speaker was greeted with a wild outburst of applause beyond all description, and the popular verdict is that the "Boy Orator of the Platte" has captured New York as he captured Chicago.

"Mr. Chairman, gentlemen of the Committee and fellow citizens—I shall at a future day and in a formal letter accept the nomination which is now tendered by notification and I shall at that time touch upon the issues presented by the platform. It is fitting, however, that at this time I speak at some length in regard to the campaign upon which we are now entering. We don't underestimate the forces arrayed against us nor are we unduly afraid of the importance of the struggle in which we are engaged, but relying for success upon the righteousness of our cause we shall defend with all possible

vigor the position taken by our party. Citizens, either public or private, who assail the character and question the patriotism of the delegates assembled at the Chicago Convention assail the character and question the intelligence of millions of people who have arrayed themselves under the banner there raised.

"It has been charged by men standing high in business and political circles that our platform is a menace to the private and public safety. Those who stand upon the Chicago platform understand the genius of our institutions, they are staunch supporters of the form of government under which we live and they build their faith upon the foundations laid out by our forefathers. Andrew Jackson has stated with admirable clearness:

"Distinctions in society will always exist under every just government. Equality of talents, of education or of wealth cannot be produced by human institutions. In the full enjoyment of the gift of heaven and the fruits of superior industry, economy and virtue, every man is equally entitled to protection by law. We yield to none in our devotion to the doctrine just enunciated. Our campaign is not for the reconstruction of society. We would not invade the home of the provident in order to supply the wants of the spendthrift.

"We do not propose to transfer the rewards of industry to the lap of indolence. I assert that property rights as well as the rights of persons are safe in the hands of the common people. Abraham Lincoln, in his message sent to Congress December, 1861, said: 'No men living are more worthy to be trusted than those who toil up from poverty, none less inclined to take or touch aught which they have not honestly earned.' I repeat his language with unqualified approval, and join with him in the warning which he added, namely: 'Let them beware of surrendering the political power which they already possess, and which power, if surrendered, will surely be used to close the doors of advancement against such as they, and to fix new disabilities and burdens upon them till all of their liberty shall be lost.'

"Those who daily follow the injunction—'In the sweat of thy face shall thou eat thy bread,' are now as they have ever been the bulwark of law and order, the saviors of our Nation's greatness in time of peace, and its surest defenders in time of war. But have only to read a part of Jackson's utterances. Let me give you his conclusion: 'But when the laws undertake to add to those natural and just advantages the artificial distinctions to grant titles, gratuities and exclusive privileges to make the rich richer and more potent and powerful, and the humble members of society, the farmers, mechanics and day laborers, who have neither time nor means of securing like favors for themselves, have the right to complain of the injustice of their Government.' Those who support the Chicago platform endorse all of the quotations from Jackson, the latter part as well as the former.

"We are not surprised," said Bryan, "to find arrayed against us those who are the beneficiaries of Government favoritism, for they have read our platform, nor to learn that we must in this campaign face the hostility of those who find pecuniary advantage in advocating the doctrine of non-interference when the great aggregations of wealth are trespassing upon the rights of individuals. Such opposition is the highest endorsement which could be bestowed upon us.

"It is not the wish of the general public that the trusts should spring into existence and override the weaker

DIED.

LIVRE—In Reno, August 12, 1908, Homer, infant son of Mr. and Mrs. F. A. Livre, grandson of Mr. and Mrs. Robert Harrison, aged 8 months.

The funeral will take place to-morrow (Friday) from the residence of Robert Harrison, at 2 o'clock P. M.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which so often afflict the human body, the efforts of the California Fig Syrup Co. are being more and more appreciated. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore an important factor in order to get the best results from any other remedial efforts, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to a physician, but if in need of a well-informed, everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

CONSERVATION IN THE GOLD CAMP.

Senator Stewart's Silver Speech Circulated by the Treasury Department.

A Washington dispatch says great consternation has been created at the Treasury Department through the discovery that in some inconceivable manner the Bureau of Printing has been circulating a part of one of Senator Stewart's silver speeches. Fears are entertained that this may give the President an apoplectic fit and cause Carlisle to go on a spree, but the gold facts stare them in the face nevertheless. The way it occurred is this:

To answer comprehensively all of many questions relative to the currency question that has been pouring in, Secretary Carlisle some time ago caused to be prepared circular No. 113, a pamphlet of fifty-three printed pages, giving much information regarding the bond issue, paper currency and the like. When application for information was received, the answer to which could be found in this pamphlet, the Bureau Chief receiving the letter would simply mail one of these circulars to the applicant in place of writing out an answer.

This has been going on for at least a week and there is no telling how many circulars were sent out when a letter came to hand from one of the recipients to the department stating that he had received a copy of the silver speech delivered by Senator Stewart, September 5, last, when the filibustering was going on. A pile of circulars lying in the department showed that in some way the printing office had bound in the cover indicating the contents of the pamphlet a number of the speeches.

In Hard Luck.

Brakeman Landon passed through on last night's west-bound to the railroad hospital at Sacramento. While running some tramps off his train at Lovelock yesterday he missed his footing and fell from the top of a box car to the ground, spraining both ankles, which completely disabled him.

Mr. Landon seems to be unlucky as he was seriously injured two years ago by being caught between some cars in the Reno yard and badly jammed. The accident put him in the hospital for several months, and when well enough he went back to Canada to his people. He recovered his health and returned here only three months ago and had just got down to work and is laid up again. He felt very blue last night over his misfortune.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her, and she says it saved her life. Mr. Thos. Eggers, 189 Florida St. San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this remedy for coughs and colds. Free trial bottles at Hodgkinson's Drug Store. Regular size 50c. and \$1.

ON for the Mountains.

Dr. W. A. Phillips, N. Bakeless and wife, Ralph Hawcroft and wife and Miss Grace Maxwell left at an early hour this morning for Little Dixie and Little Grizzly Valleys on a camping trip of several days duration. The party had ample equipments for hunting and fishing, and it looked as if they intended to have a jolly time. They will be absent about a week.

Committee Meeting.

The members of the Committee on Permanent Organization of the Non-partisan Bryan Club are requested to meet at the office of Goodwin & Dodge this (Thursday) evening, August 13th, at 7:30 o'clock, for the purpose of preparing the report to be submitted at the meeting at the Court House Saturday night.

TO CLEANSE THE SYSTEM.

Effectually, yet gently, when constive or bilious, or when the blood is impure or sluggish, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, or fevers, use Syrop of Figs.

Viavi.

Viavi is more of a food than a medicine. I should be glad to have those who do not understand its use, call and get a Health Book free and read the home testimonials. Viavi sales in 1895 exceeded those in 1894 by half a million dollars. Mrs. B. E. HUNTER, Fourth Street.

Cheap Footwear.

BREVITIES.

The eastbound train was over two hours late last night, cause of delay, heavy train.

Mrs. A. M. Cole and son of Virginia arrived on the V. & T. last night and continued west.

Tom Evans arrived from California yesterday morning and continued on to Empire to attend the funeral of Miss Laws.

Griff Parry and Jack Caughlin attended the funeral of the late Miss Clara Laws, which took place at Empire yesterday.

Miss Myrtle Grayson, who has been teaching school at Humboldt House, has returned and intends to resume her studies at the State University next term.

Sam Hodgkinson rang in some of his antiseptic gum on the fire boys a day or two ago, and Jim Carroll and Lee Hawcroft say that Sam will find himself kidnapped some fine morning.

Mr. Novacovich saw that the fire boys at the engine house were looking wistfully at the big pile of melons in front of his store yesterday, so he sent them over a couple of big juicy melons with his compliments.

Miss Minnie Shields was an arrival from Wadsworth yesterday morning, where she has been visiting for the past month. She was accompanied by the Misses Mamie and Theresa Donelin, who will spend a week or two in Reno.

An election has been held in Tennessee for Judges of the Chancery Court of Appeals. Though the vote was light the Democratic majority is not less than 25,000. It is now expected that Bryan will carry the State by 60,000 majority.

There are men conducting newspapers in Nevada; preposterous as it may seem, who say the Government is purchasing silver. Intelligent people know that since the repeal of the Sherman act the Government has not purchased an ounce of silver.

Senator Teller of Colorado says Thurston knew he was asserting a falsehood when he said that Bryan was employed by a syndicate of silver mine owners. He felt like calling Thurston down himself, but he understands it will be done by Bryan in proper season.

It was statesmanship for Senator Sherman and his co-conspirators to reduce the primary money of the United States one-half by demonetizing silver. Now it is repudiation to restore silver and redeem the obligations of the United States in the money nominated in the bond.

At the Reno last night: E. B. Camp, Oswego, N. Y.; B. H. Talbot, Susanville; J. G. Young and son, Mason Valley; P. J. White, Chas. E. and Jas. P. Watson, Carson; W. H. Armstrong, Oakland; Jos. B. Treadwell, Sacramento; O. Anderson and E. Holmstrom, Lovelock; Mrs. Wilson, Nevada City.

The thanks of the JOURNAL force are again due and freely tendered to Novacovich for a splendid treat of melons yesterday. Mr. Novacovich does not delay in procuring the latest fruits and vegetables for his patrons, but as soon as he can obtain such delicacies he has standing orders to ship immediately. While he makes a specialty in this line, he also has the choicest of staple and fancy groceries.

Old People.

Old people who require medicine to regulate the bowels and kidneys, will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whisky nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50c. per bottle at Hodgkinson's Drug Store.

Change in the "Enterprise."

A report reached here last evening that there was a change made in the management of the Virginia Enterprise yesterday. J. E. McKinnon retires and Fred Norris and Frank Blake assume charge. Whether there is any change in the politics of the paper has not been ascertained. It has been advocating McKinleyism, not by appealing to men's reason, but by pure and unadulterated blackguardism.

Justice Court.

The preliminary examination of Hunk and Porter, the two men charged with attempting the wreck of the east-bound passenger train last Thursday night, was concluded yesterday before Judge Linn. The defendants were bound over to appear before the grand jury with bail fixed at \$1,000 each. Not being able to give the necessary bail they were remanded to jail.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sprains, sores, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 50c. per box. For sale by E. J. Hodgkinson.

BRYAN AT NEW YORK.

(Continued from second page.)

members of society. It is not the wish of the general public that these trusts should destroy competition and then collect such tax as they will from those who are at their mercy, nor is it the fault of the general public that the instrumentalities of the Government have been so often prostituted to the purpose of private gain. Those who stand upon the Chicago platform believe that the Government should not only avoid wrong doing, but that it should also prevent wrong doing, and they believe that the law should be enforced alike against all enemies of the public weal.

After a masterly defense of the income tax plank, Bryan launched into the financial question, and the citizens of the hotbed of the gold standard stood in their seats and cheered him before he had fairly warmed up. Beginning at the inception of the movement to demonetize silver the speaker traced the divergence of the metals with strong antithesis and eloquent points. His flights of oratory were second only to his forcible argument, and such a masterly review of the monetary issue probably never has been listened to. He took the arguments of the gold standard supporters singly and tore them out to tatters in a convincing and logical manner. In short, while his Chicago speech might be termed an oratorical effort, to-night's address was distinctively a clear-headed and powerful dissertation and argument, serious and logical in the extreme, and was the utterance of a man of great depth and reasoning power.

"He is all right" was on the tongue of every spectator as they filed out of the building.

The Washington Conventions.

ELLENBURG, Wash., August 12.—At the evening session a committee of thirty was appointed by the Populists to confer with similar committees named by the Democrats and Silverites for the purpose of effecting a satisfactory fusion on Presidential electors and the State ticket. The convention then adjourned until morning to give the committees time to submit their plans. It is a foregone conclusion that a harmonious agreement will be reached.

The Colored Men Endorse Bryan.

CHICAGO, August 12.—The Negro National Democratic League Convention effected a permanent organization to-day by electing A. J. Manning of Indiana President, W. H. Clark, Secretary, W. E. Johnson, N. Y. Treasurer, W. T. Scott, Ill., Chairman of the National Executive Committee. The platform denounces the National Republican platform and endorses Bryan and Bewell. It also condemns the Supreme Court for discriminating against the negro race.

TELEGRAPHIC NOTES.

Watson, Little & Co., one of the largest coal firms in Chicago, assigned yesterday.

Tuesday the deaths from heat in New York City, numbered 150 and yesterday there were 123.

The Bank of National City, California, capital stock \$30,000, closed its doors yesterday. It is known to be solvent.

George H. Millar, the builder of the capitol dome at Washington, and one of the most noted architects of the age, died yesterday aged 72 years.

Illinois Populists will endorse the Democratic State ticket. W. B. Beck, the Democratic candidate for State Auditor, has resigned to make room for a Populist.

It is reported that a British man-of-war has taken possession of the island of Clarion, which belongs to the State of Coloma, Mexico. The report is not confirmed.

E. S. Sanborn & Co., manufacturers of ladies' shoes at Lynn, Massachusetts, have assigned. The liabilities are \$72,000, assets between \$50,000 and \$60,000. Cause of the failure, dull times.

W. G. Peters, late cashier of the Columbia National Bank, of Tacoma, has been found guilty of falsifying the books. A verdict of guilty was returned on 39 counts out of 44, and the jury disagreed regarding the others.

E. A. Cochran, a noted rustler, has been arrested in Wyoming for stealing a bunch of cattle for a man named Rose, in Colorado. Rose has been missing since the cattle were stolen, and it is suspected that Cochran murdered him.

The Wyoming Republican State Convention was called to order yesterday by Senator Warren. A. D. Kelley, Temporary Chairman, said the St. Louis platform did not express his views on the financial question, but he would support the ticket.

The Sperry Flour Company's mill at Paso Robles, California, was burned yesterday; loss on building \$38,000, and on wheat and flour \$12,000. The fire was caused by the smoking of an elevator in the upper story of the mill.

which caused the belt to slip and the friction set fire to the wood.

Judge Noble denied the application of the locked out employees of the Brown Hoisting Works at Cleveland, Ohio, for an injunction to restrain the Mayor from calling out the militia and the company from arming its employees and to compel the company to carry out its agreement with the locked-out men.

A large number of prominent politicians gathered at the Fifth Avenue Hotel, New York, yesterday. Among them were Governor Hogg of Texas, Senator Tillman of South Carolina, Senator Roach of North Dakota, Senator Stewart of Nevada, Congressman McMillan and Richardson of Tennessee, George F. Williams of Massachusetts, and General A. J. Warner.

The Populist, Democratic and Silver State Conventions met at Ellensburg, Washington, yesterday, and the following, signed by the chairman of each convention, was sent to W. J. Bryan: "The State Conventions, Democratic, Populist and Silver Republicans in State Conventions at Ellensburg, send congratulations and promise you the electoral vote of the State."

The Notification Committee organized in New York City by electing Governor Stone of Missouri Chairman in the absence of Senator White of California. The committee complained that each member was only allowed three tickets to Madison Square Garden, which was not sufficient as they were accompanied by friends from distant States. It was arranged for Governor Stone to deliver the notification speech.

Governor Franklin of Arizona has received a dispatch from Nogales informing him that an assault was made on Nogales, Sonora, yesterday morning by filibusters and that three Mexicans were killed and seven filibusters were killed or captured. The party was composed of fanatics from Santa Teresa. Nineteen filibusters from Arizona and forty from Mexico were in the fight against the authorities.

David Neagle pleaded not guilty to assaulting A. J. Collins in San Francisco yesterday. W. C. Oubrey and other witnesses testified that Neagle was about the Southern Pacific offices and brutally banged Collins' head against a brick wall because he had accused H. B. Huntington regarding his claim against the railroad. The prosecuting attorney tried to show that Neagle was connected with the Southern Pacific as a bunder. Neagle objected, and advancing toward the attorney shouted, "I am not a hired ruffian." As Neagle was not represented by counsel Judge Low adjourned court and ordered Neagle to have an attorney to appear for him.

Judge C. E. Mack visited Reno yesterday and remained over.
